How to use

1. Power On/Off

Press the power button 5 times quickly to turn on/off. The LED indicator will flash 5 times to indicate device turning on/off.

2. Preheat

Click the button of your device 2 times after turning on to initiate a 30 seconds preheat. Use the preheat feature when vaping high viscosity oils or in cold weather. To stop preheat mode, simply click the button of your device one time.

3. Voltage Change

Your device has 4 voltage settings, indicated by the lights on your battery. One light indicates low voltage (2.8V), and the voltages increase with the number of lights. Click the button of your device 3 times to raise the voltage.

4. Charging

The lights on your device will blink when plugged into the charger, and all lights will be solid when it is fully charged. Do not charge for over 1 hour.

5. Usage

Screw the corresponding magnetic adaptor onto your cartridge. The larger magnet is for use with shorter (.5 g) cartridges, and the small adaptor is for larger (1.0 g) cartridges. After screwing the magnet on, put your cartridge in the battery. Lights will glow for 2 seconds to indicate device recognition. Turn your device on, and preheat your oil if necessary. Hold the button of your device and inhale to vape.

Warranty

Your purchase of the Breezy includes a lifetime warranty on all its parts. Yes, you read it right. We are confident that the Breezy is the only vaporizer you will ever need. If ever any part becomes defective, we will replace it only for the cost of shipping and handling.

Each Breezy is hand tested in our US warehouse before shipping to ensure quality.

We want our customers to be fully satisfied with their purchases. If it ever fails to do its job, then we will replace it. It is that simple.

Be sure to scratch and scan tag located on box to collect rewards and activate your lifetime warranty.

This lifetime warranty applies to customers within the United States of America only. Please contact us directly at support@thekindpen.com if you are outside of the US.
